

Sponsor a School and Make a Difference

Hundreds of Songs ... Unlimited Access ... One Low Price!

“In a perfect world, all students, everywhere, would have equal access to learning resources, regardless of their economic circumstances.”

EduActiveLearning.com, an online subscription service, allows schools to access an extensive library of curriculum based songs covering a wide variety of subjects. The songs are presented in a fun and interactive layout that can be used in front of an entire class using an interactive whiteboard or by individual students on any computer.

Our sponsorship program provides the opportunity for members of the business community, PTA groups and even concerned individuals, to sponsor local schools, giving students year-round access to the curriculum-based songs and activities available on EduActiveLearning.com.

Students will have 24 hour access to songs teaching: sight words, phonics, math, grammar, health, nutrition, Spanish, French and Mandarin. For just \$399.99 you can give your sponsored school access to a resource that will make a real difference in the learning experience of its students.

Sponsors will have a banner ad placed on the login page for their sponsored school with a free link to their company's website (optional). The banner will be seen thousands of times throughout the school year.
